

STARBUCKS SUSTAINABILITY COMMITMENT

BECOMING RESOURCE POSITIVE

Our aspiration to become resource positive means we will give more than we take: storing more carbon than we emit, providing more clean, freshwater than we use and eliminating waste.

2030 TARGETS

50% REDUCTION
in carbon emissions

50% REDUCTION
in water used in global operations,
packaging and agricultural supply chain
through conservation or replenishment

50% REDUCTION
in waste sent to landfills

AREAS OF FOCUS

Expanding **plant-based**
menu options

Shifting away from single-use
to **reusable packaging**

Investing in **regenerative**
agriculture, reforestation,
forest conservation and
water replenishment in
our supply chain

Better ways to **manage**
our waste

More **eco-friendly stores**,
operations, manufacturing
and delivery

“As we approach the 50th anniversary of Starbucks in 2021, we look ahead with a heightened sense of urgency and conviction that we must challenge ourselves, think bigger and do much more in partnership with others to take care of the planet we share.”

KEVIN JOHNSON

chief executive officer, Starbucks Coffee Company
