**Military Family Stores**

100+
MILITARY FAMILY STORES
Military Family Stores serve as a central gathering place for active military personnel, veterans, their families and surrounding communities. These stores, located near major military bases, provide a sense of connection and support for military families.

Military Family Stores also serve as a foundation and model of engagement for hundreds of stores in military communities to advance veteran causes, accelerate the hiring of veterans and military spouses and bridge the civilian–military communities. Through partnerships with veteran service organizations, our Military Family Stores link local veterans and their families to important resources, services and shared communities.
